

UPSWING LADY PANTS

Art. No. 085150

Lightweight summer pants with large mesh panels

test reports

Reise Motorrad's [hot buy!](#)

"This suit is definitely convincing. In comparison to other summer suits Modeka offers the lowest price. Nevertheless, nothing important has to be missed. On the contrary, equipment and workmanship are okay. The mesh panels have been selected very big to offer ventilated comfort even in higher temperature." (3/2016)
